

KERAMAG
DESIGN

Keramag Design reflects the commitment of a strong brand to creating special products. These bathroom ranges, exclusively developed to meet the most demanding of requirements, are testament to an exceptional appreciation of detail. They make tangible the company's passion for beautiful shapes, and transform the wishes of our customers into a unique experience – combining high-quality materials, first-rate finishes and sophisticated comfort.

Keramag Design stands for superb aesthetics, personality and quality, as well as timeless design which outlasts short-lived modern trends.

Behind these high standards is an innovative company with a long tradition of expertise and a clear brand promise: 'We create lasting values!'. Keramag has been developing products precisely tailored to the needs and desires of the people who use them, for over 110 years. Products which appeal primarily because of their design and long-lasting quality. Keramag Design is synonymous with the Keramag lion, which has guarded the company's tradition of lasting values right from the beginning.

Thanks to its awareness of values, Keramag is now one of Germany's leading manufacturers of high-quality sanitary ceramics which – as part of the highly successful international Sanitec Group – meet the highest of standards, both at home and globally.

PRODUCT OVERVIEW Page 182

XENO²

Robin Platt has worked with industrial ceramics for almost 15 years. His clients have included glass and tableware manufacturers Rosenthal and WMF, and his creations have seen service with Lufthansa. He has won many awards and has various ceramic designs in the V&A Museum, London. With experience in both product and furniture design, creating a bathroom series has felt like a natural progression.

With Xeno², an architecturally clear shape is combined with the power of nature. At first glance, it looks simple. But on closer inspection, you discover its emotional and exciting side. The ceramic design surprises with its geometric precision in the form of a gently flowing inner basin that appears as though it has been carved out by water over centuries. Perfect in combination with the finest linear bathroom furniture. Xeno²: natural, serene style.

- **Tall cabinet with glass shelves, large inner mirror and high-quality soft-close hinges**
- **LED illuminated mirror elements with anti-fog coating, atmospheric indirect light and direct lighting above that can be dimmed via a sensor switch**
- **Attractive asymmetric guest WC solution**
- **Easy-care KeraTect® specialist glaze with a 30-year guarantee of a consistently smooth ceramic surface, is available as an option**

XENO²

Design

Developing the perfect product design demands a special, creative kind of imagination and a wealth of expertise. It is a matter of combining creative possibilities with what design development is ultimately all about: people. For Keramag, therefore, every new design form brings to life a carefully-considered functionality. It is orientated to the desires and needs of people and captures the vitality of a

for people

world constantly in motion. Product design by Keramag reflects the brand's high standards. It is innovative, honest, durable and has a timeless aesthetic. Developed for people who want to see their own personality reflected in the objects that surround them. Created by designers who understand what it means to make something unique.

citterio

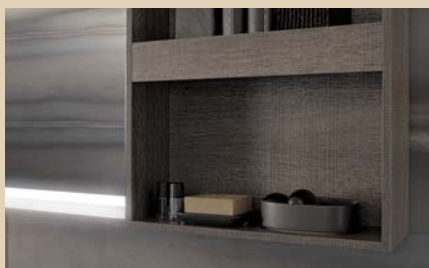

design Antonio Citterio
with Sergio Brioschi

Antonio Citterio Antonio Citterio is one of the most renowned architects and designers in Italy. His elegant design vocabulary is manifest in his objects, interiors and architecture. Stringent and highly functional. Many of his product developments have won internationally significant awards, are exhibited in the Museum of Modern Art and have become an integral part of the collection at the Centre Pompidou in Paris. Successes that confirm his feel for special contemporary shapes.

In the Citterio bathroom collection, designer Antonio Citterio combines puristic and natural design elements into a unique and sophisticated Italian design presence. Crisp geometric contours and soft organic curves become one. High-quality, innovative materials complement each other in their exciting variety. Citterio fills rooms with sleek, timeless elegance.

- Italian design with sleek, timeless elegance
- Crisp, geometric lines and organic, gentle curves
- Aesthetic washbasin shapes with symmetrical and asymmetrical interior basins
- Elegant, integrated and specially developed ceramic domed cover cap for washbasins
- Washbasins with patented Clou system or with positive drain
- Excitingly presented vanity units with a wooden structure, glass front and a colour-coordinated metal frame
- Vanity units can, as an option, be complemented with furniture feet
- High-quality glass cover plate for countertop washbasins in the same colours as the vanity unit fronts
- Smooth-running drawers with soft self-closing mechanism
- Asymmetric unit made up of vanity unit and side unit with additional storage compartments
- Tall cabinet with glass front or open shelves and mirror
- WC and bidet as a wall-mounted or floor-standing version with concealed mounting system
- Harmoniously integrated WC seat with soft closing mechanism
- Illuminated mirrors with LED lighting strip of varying sizes, with optional side storage features at 1334 mm width
- Mirror frame to match the wooden furniture structure
- Attractive guest WC solution
- Easy-care KeraTect® specialist glaze with a 30-year guarantee of a consistently smooth ceramic surface, is available as an option

Innovations

Innovations are the best ideas in the world. They originate in visions of an easier, more pleasant life. They spur us on to look for new ways of pushing back the limits of what is known and, eventually, to writing a new chapter of the future. Keramag's innovative strength can be seen in patents such as the Clou system, which combines an aesthetically smooth ceramic surface with no overflow hole for wash basins and bidets and a completely overflow-proof water storage

make life easier

feature. Or in the development of the KeraTect® specialist glaze, the first really easy-to-care for ceramic finish with a 30-year guarantee of consistent surface smoothness. It is with innovations such as these that Keramag is redefining standards. Innovations developed for a future that brings a new level of quality to life.

PRECIOSA II

Bernd Brohammer works at Keramag and also internationally throughout the entire Sanitec Group as a product and industrial designer. For him, good design combines a high level of aesthetics and functionality with a form that is optimised in production and technology terms. His design developments are successfully positioned in the market and demonstrate his talent for tailoring innovative ideas to meet special requirements.

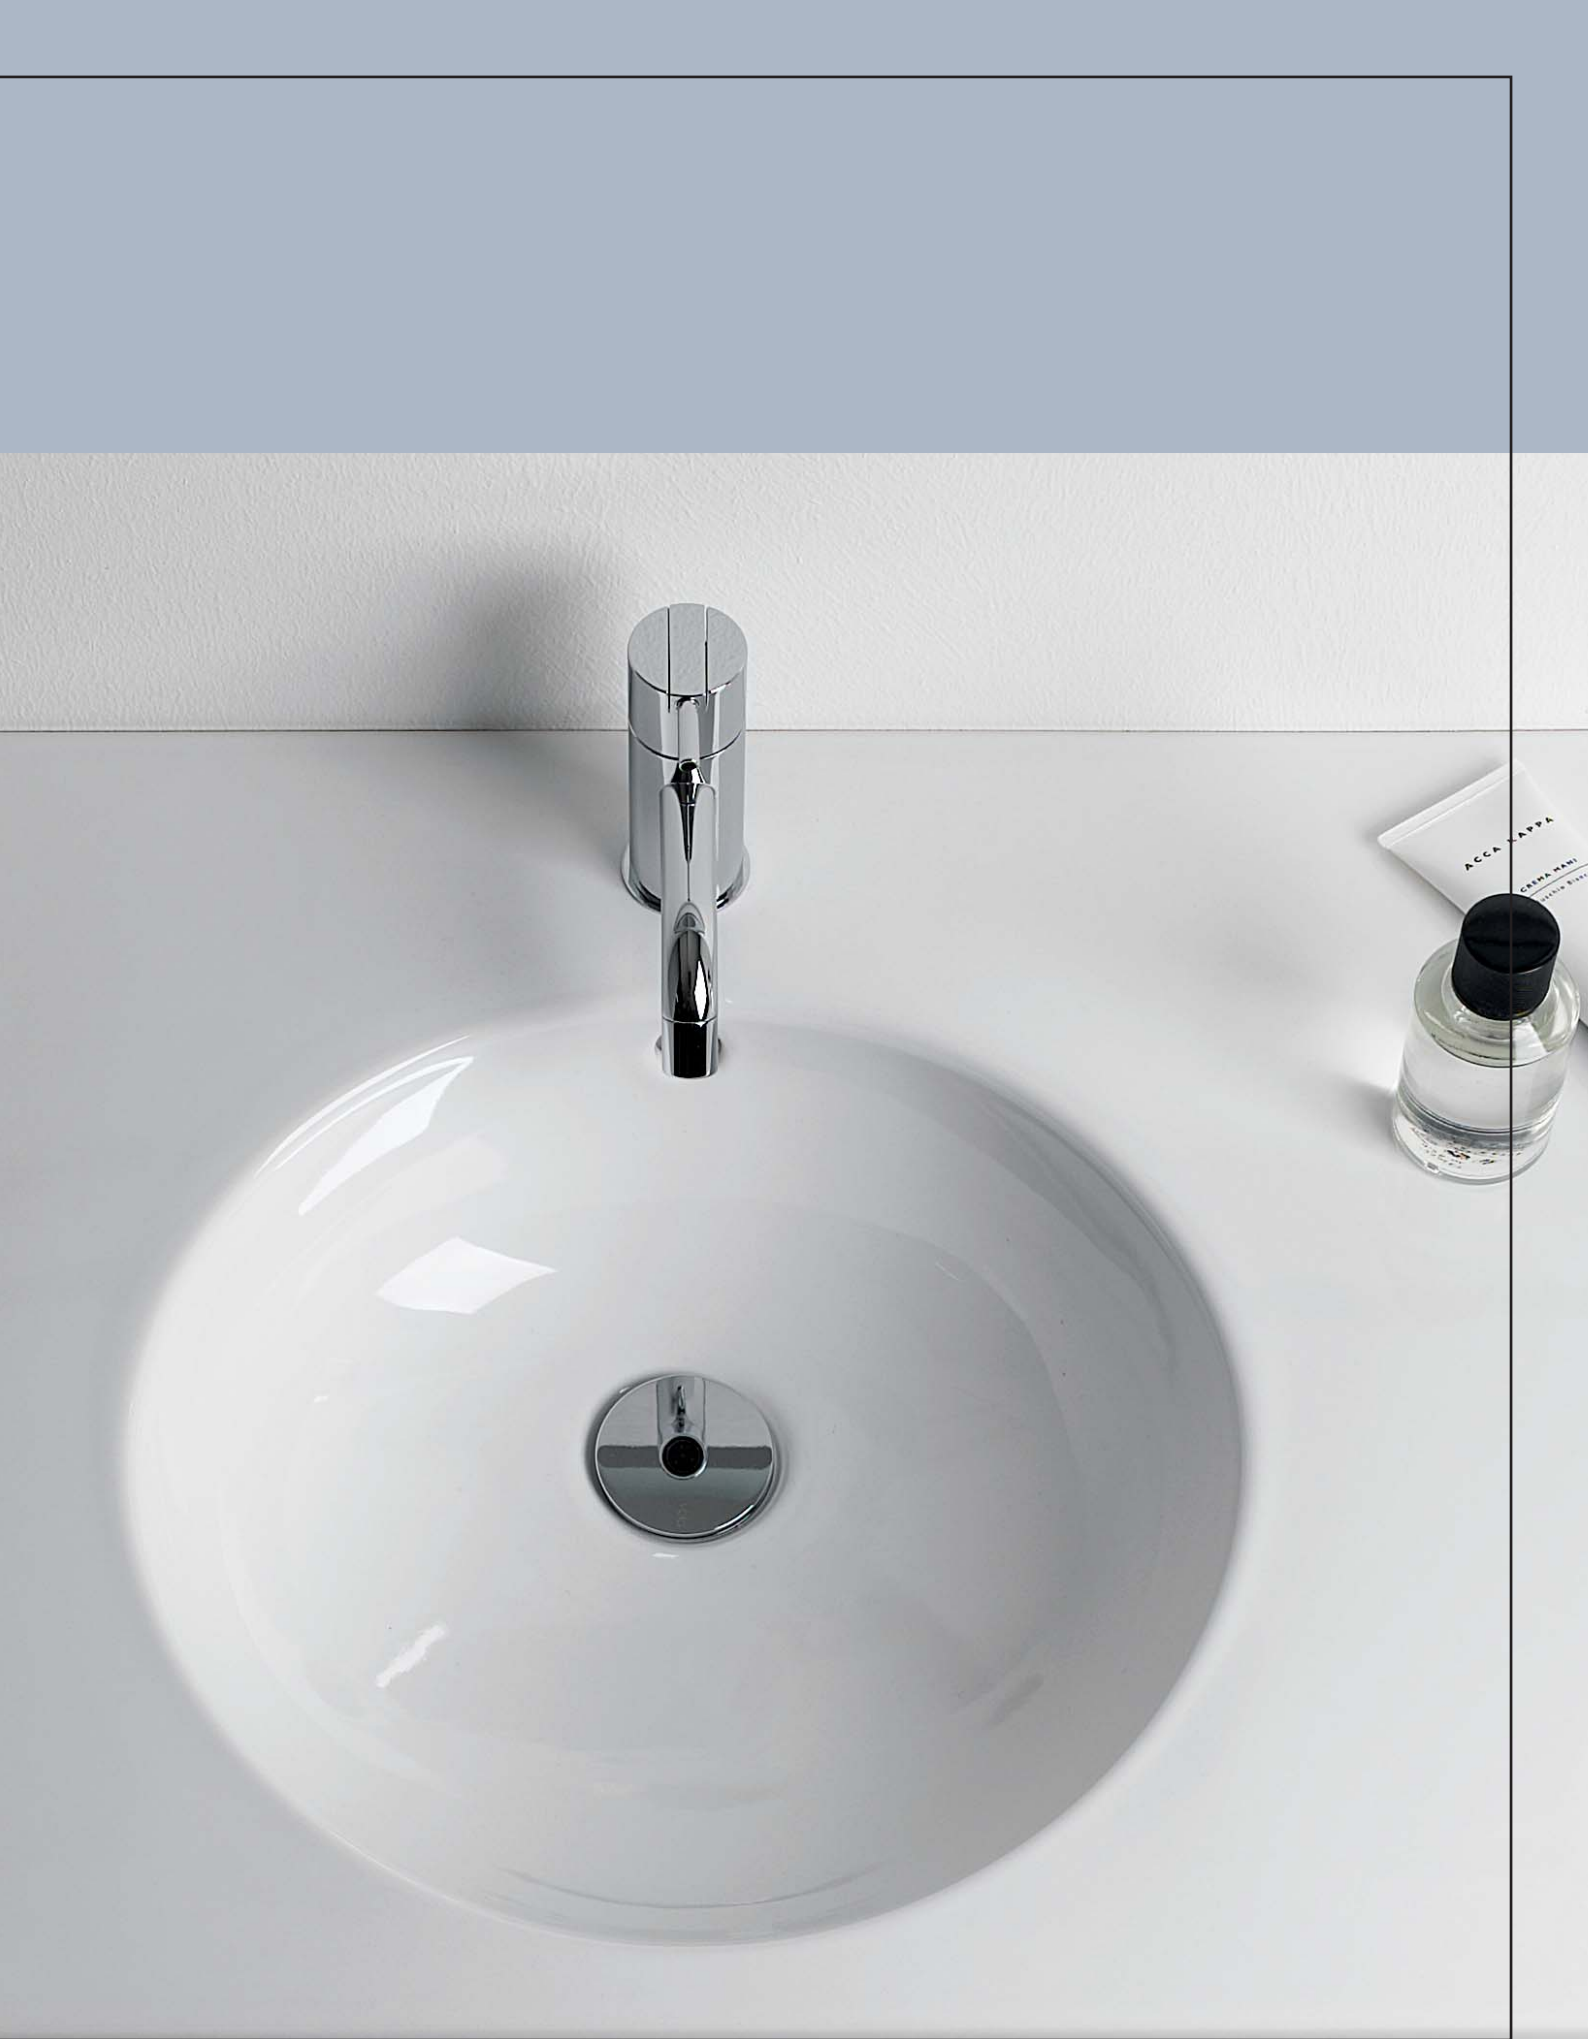

With Preciosa II, Bernd Brohammer has created a bathroom collection in a consistently minimal artistic style, because it is clear structures that remove complexity from life. Rectangle and circle in a graphically pure union. Preciosa II embodies clarity and precision with the strength of an aesthetically sleek form. Pure geometry for precise architectural concepts.

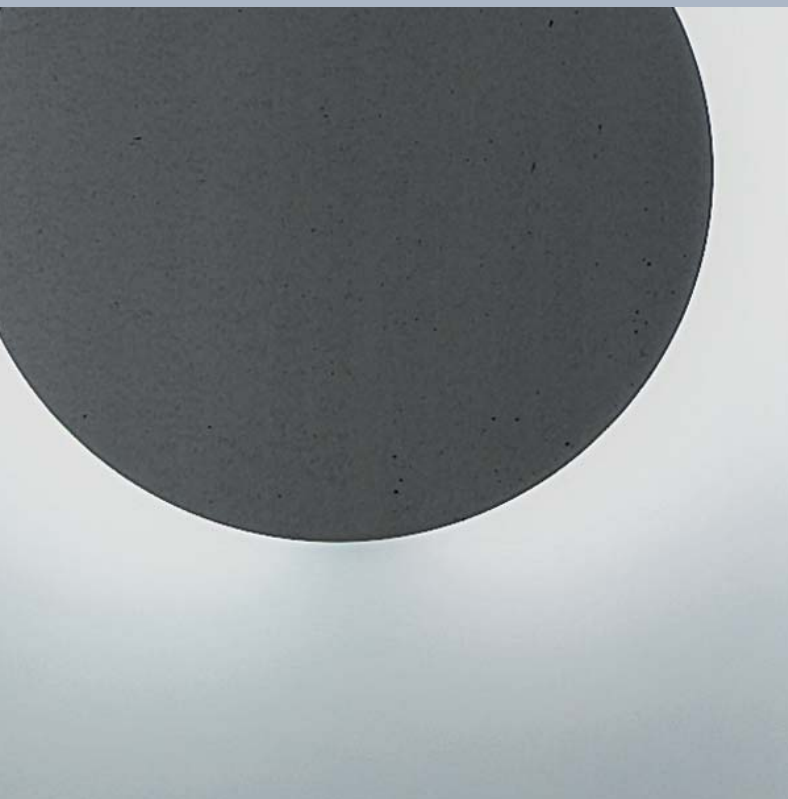

- **Pure geometry for clear architectural concepts**
- **Washbasins available in widths of 600 and 900 mm, available with various tap hole and overflow designs**
- **Precision-mitred furniture**
- **Chrome-plated handles in the series' signature circular shape**
- **Smooth-running drawers with soft self-closing mechanism and practical interior organisation**
- **Adjustable glass shelves in the tall cabinet**
- **Towel rail for washbasin and hand-rinse basin, mountable to side or front**
- **Illuminated mirror in an unusual circle/rectangle combination of mirror and light elements**
- **WC and bidet with increased floor clearance**
- **Innovative WC mount for perfectly smooth ceramic surfaces**
- **WC seat with soft closing mechanism**
- **Bath tubs with comfortable surfaces on both sides**
- **Varied shower tray range in same architecturally clear series design**
- **Convenient guest bathroom solution**
- **Easy-care KeraTect® specialist glaze with a 30-year guarantee of a consistently smooth ceramic surface, is available as an option**

PRECIOSA II

myDay

Cornelia Thies is an industrial designer who pours her heart and soul into her designs. Her benchmark for good design is the customer. His or her requirements, values and habits determine the shape and function of Thies' design solutions. As part of her work as a designer at Keramag and within her own design business in Cologne she has, since 2000, created numerous sanitary products and bathroom ranges, as well as innovative products for homes, gardens and vehicles. Each individual item is a successful example of the empathy and expertise she draws on to design products which simply work.

The bathroom collection myDay is the very essence of the desire for a soft, natural and feel-good aesthetic. It is ideal for providing a welcome break from the hustle and bustle of everyday life and captures a particular approach to life: carefree and uncomplicated. With a design that incorporates large radii and flowing shapes, myDay brings a natural and elegant lightness to the bathroom, while offering a high degree of flexibility which caters for personal design preferences.

- **Flowing elegant shape for an air of natural lightness**
- **Striking ceramic design: softly rounded with large radii**
- **Variety of washbasins – single, double and insert**
- **Large cover caps with high-quality chrome edging for washbasins, bidets and baths**
- **A ceramic cover cap is available as an option on all washbasins**
- **Various organisation systems for vanity units**
- **High-quality glass cover plate for asymmetric vanity unit**
- **Easy access drawers with automatic soft-closing mechanism**
- **WCs and bidets with raised ground clearance and concealed fixing systems**
- **WC seat closes to form a seamless whole with the ceramic, and is available with soft-closing mechanism if required**
- **Washbasins and bidets are available with patented Clou system for filling basins or constrained drains**
- **Unique storage pocket in door of tall cabinet**
- **Adjustable glass shelves in tall cabinet**
- **Spacious bath tubs in high-quality flowing design**
- **Illuminated mirror, also with large radii and a continuous LED light strip all the way around mirror**
- **Guest WC solution in special myDay design**
- **Easy-care KeraTect® specialist glaze with a 30-year guarantee of a consistently smooth ceramic surface, is available as an option**

myDay

Quality

Only those who attach great importance to the smallest details can be sure of achieving the perfect whole. Brand quality is therefore much more than meets the eye for Keramag. It is the perfect balance of aesthetics, functionality and comfort. It is the use of high-quality materials, crafted with precision. Keramag ensures this high level of quality endures with careful functional tests, load tests, digital measurements and strict internal monitoring. From the perfectly flat, smooth surface of a washbasin, the precision fit of the mitred bathroom furniture to the

provides safety

reliability of an illuminated mirror, Keramag products meet the highest standards of German quality. Here too, the brand's exacting demands are demonstrated. Keramag was Europe's first bathroom ceramics manufacturer to be certified in accordance with the international DIN EN ISO 9001 standard for excellence in quality management. This responsible approach to quality guarantees excellent products and the permanence of that inestimable value: satisfaction.

SILK

Michael Schmidt works internationally as a successful product designer and is head of the code2design studio in Stuttgart. His clients include industry leaders such as Audi, BMW, Porsche and Panasonic. He feels successful design should tell a story that inspires people. Recognition from the German Design Awards, Red Dot awards, iF design awards, the award for Design of Europe 2000 and many more support his claim to give products an additional quality which distinguishes them from others.

The Silk bathroom collection is packed with many thoughtful additions. A sanctuary from the outside world, effectively orchestrated without being imposing. Silk combines the charm of an elegant and exciting shape with exclusive comfort, precisely fine-tuned down to the smallest detail. Perfect for bathrooms with special demands on well-being.

- **Elegant and exclusive comfort for bathrooms that demand something special**
- **Washbasins up to 1200 mm wide, with asymmetric countertop basins and hand-rinse basins**
- **Furniture in high-quality real-wood veneers and high-gloss white**
- **Washbasin plates with circular, elegantly recessed panels**
- **High-quality chrome towel rail, can be mounted on side of washbasin plate and also as a handle on wall, as well as in combination with special shelf in the shower**
- **Drawers with soft self-closing mechanism and flexible interior organisation**
- **Half-height side cabinet**
- **Large interior mirror and strip light in the tall cabinet**
- **Fold-out beauty module with illuminated, adjustable mirror**
- **Softly padded, height-adjustable rolling stool with integrated storage**
- **Spacious bath tub with adjustable neck pillow**
- **Illuminated mirror element for three mirror sizes with anti-fog function and atmospheric changes in light colour that can be controlled remotely**
- **WC and bidet with 30 mm higher seat positions to facilitate standing up and with high floor clearance**
- **WC seat with soft closing mechanism**
- **Concealed mounting system for wall-hung WC and bidet for completely smooth ceramic surfaces**
- **Elegant guest WC solution**
- **Easy-care KeraTect® specialist glaze with a 30-year guarantee of a consistently smooth ceramic surface, is available as an option**

SILK

Sustainability

The more complex our world becomes, the clearer a stand we must take in protecting it. For Keramag, the need to create lasting values includes the obligation to protect existing ones. In 1994 Keramag became the first company in Europe in the sanitary and ceramic industry to receive the environmental management certificate for highly energy-efficient and environmentally friendly production processes. Keramag sanitary ceramics are

for a better world

recyclable. The innovative KeraTect® specialist glaze saves detergent. And on the subject of saving water, Keramag WCs and urinals are amongst the most efficient of their kind. In the field of approved and sustainable construction and resource-efficient water use, Keramag is actively involved in the development of environmentally advanced solutions for a world worth living in. Because we can influence today, how well we live tomorrow.

UNIVERSAL

Elegant design element and complete flush technology in one. Universal is a cleverly constructed cistern unit that brings a high level of aesthetics into the bathroom. Optimally designed for simple, quick installation and made from high-quality materials both inside and outside. A basis that meets the highest standards with a stylish and soft design that goes together perfectly with all WC's from the Keramag Design range.

- **Sanitary module for mounting of wall-hung WCs and floor-standing back to wall WCs**
- **Sophisticated, modern and sleek design of timeless elegance**
- **Complete flush unit for simple, aesthetically-pleasing pre-wall installation, 495 mm wide, 1 170 mm high, 110 mm deep**
- **High-quality 8 mm thick front made from safety glass in white, black and taupe**
- **Stylish aluminium frame, brushed, in two colours: natural aluminium and champagne**
- **Elegant dual flush plate made from high-quality glass integrated into the front**
- **Water-saving dual flush with 3 and 6 litres of water**
- **Particularly quick and easy to install**
- **Hidden waste water connections**
- **Perfectly matches all WCs by Keramag Design**
- **Ideal for simple and aesthetically discerning refurbishments as well as new builds**

UNIVERSAL

MATTIS

With Mattis, the bath tub by Keramag Design that can be placed anywhere in the room, having a bath becomes an enjoyable experience enhanced by stylish design. The simple, modern and rounded elegance of the shape provides plenty of flexibility for personal touches and complements all Keramag Design ranges perfectly. Self-assured and timeless. Made from high-quality resin stone, guaranteeing first-class quality.

- **Can be placed anywhere in the room**
- **Sophisticated simple, modern and rounded elegant design**
- **Made from high-quality resin stone: pleasantly warm to the touch, strong noise and heat insulation characteristics and hard-wearing**
- **Particularly easy to clean**
- **Spacious tub size for a pleasant depth of water**
- **A simple touch is all that's needed to open and close the outlet**
- **Elegant wider tub edge can be used as shelf**
- **Perfectly matches all bathroom ranges by Keramag Design**

MATTIS

OPALE

Opale is simple, slim and with a installation height of just 130 mm, it is a clear statement of innovative shower room design. With a flat design and high aesthetic standards, Opale is a completely new shower tray range that can be tailored to meet personal installation requirements. A unique, fully-integrated and patented water drainage system gives it the lowest installation height of any flat shower tray on the market and enables the tray to level with the floor. Perfect for a new type of freedom for the shower room. The stylish design is possible by the use of the material Varicor®, while a special design feature in the form of an integrated level drying zone provides a high degree of comfort.

- **Flat shower trays in slimline design: 1200, 1400, 1600, 1700 mm long, each available in widths of 800 or 900 mm**
- **With convenient drying zone for drying off and comfortable, level standing area in water drainage area**
- **Made from high-quality Varicor®: non-porous, repairable and anti-bacterial with pleasantly soft warm surface**
- **Slip-resistant Class B surface in accordance with DIN 51097**
- **Unique to the world of flat shower trays: low installation height of max. 130 mm thanks to fully-integrated, patented drainage system**
- **Installation types: level with the floor, 15 mm above floor level or on floor. Special tray bases are available as option**
- **Removable cover cap for easy cleaning**
- **High-performance water outlet can drain up to 36 litres/min quickly and safely, ideal in combination with high-power shower systems. Meets strict standards of EN 274.**
- **Ideal for modernising bath tub sections in high-quality shower rooms with a high level of comfort for people of any age**
